Summary

Front-end developer with over 4 years of commercial experience building React and React Native applications, from e-learning platforms to client-facing web projects. Now working across the full stack with TypeScript, Next.js, Prisma and Supabase, with particular focus on accessibility, performance and reusable components.

Technical Skills

Core: React, TypeScript, Next.js, React Native

Styling: CSS, Tailwind, SCSS

Backend, APIs & Databases: Node.js, REST APIs, Prisma, Firebase, Supabase

Testing: Jest, React Testing Library, Vitest, Playwright

AI Tooling: Anthropic API, AI-assisted workflows (Cursor, Claude Code)

Tools & Platforms: Git/GitHub, Auth0, Sanity CMS, Figma

Employment History

Front-end Developer (Freelance contract) - Sofa Club, Hertford

Aug 2025 – April 2026

- Rebuilt the internal admin dashboard in React, Next.js and Tailwind, replacing manual processes for the operations team and improving day-to-day usability.
- Integrated payment, stock and order APIs into the dashboard, with unit and end-to-end test coverage (Jest and Playwright) to protect against regressions.

Career Break & Freelance Development

Jan 2025 – July 2025

- Took a planned career break after 3.5 years in agency work to travel and complete freelance projects, deepening skills in TypeScript, Next.js, testing, accessibility and full-stack React development.
- Built an accessible charity website in React and SCSS supporting parents of children with autism, prioritising clear navigation and usability for non-technical users.
- Integrated Stripe and multiple payment methods for donations, plus EmailJS for contact forms, and deployed to Vercel.

Front-end Developer - Ignition, Hatfield Heath

Rory Eddleston

Jun 2021 – Dec 2024

- Led development and maintenance of a React Native app used by internal teams and clients; identified and resolved legacy bugs via Sentry error monitoring, achieving a 25%+ improvement in load times and eliminating app freezes.
- Designed and built a reusable React component library adopted across 10+ client projects, reducing development time and improving UI consistency.
- Built accessible, responsive e-learning applications in React, ensuring WCAG compliance and cross-device compatibility.
- Owned frontend decisions across multiple long-running client projects, from scoping through to delivery.

Data Analyst - Credit Benchmark, London

Sep 2018 – Jan 2021

- Wrote SQL queries and R scripts for internal reporting and external client analysis.
- Led bespoke data investigations for clients, ensuring data quality and accuracy.

Volunteer English Teacher - Trishuli Rafting, Nepal

Nov 2017 – Jan 2018

- Taught English to mixed-ability groups, including children with no prior formal education.

Projects

[Pokémon Portfolio Price Tracker](#) | Next.js, TypeScript, Prisma/PostgreSQL (Neon), Tailwind, REST APIs

A full-stack dashboard for tracking Pokémon card holdings, purchase prices and real-time estimated values - built to replace manually checking multiple marketplaces.

- Designed typed API routes, Prisma models and reusable UI components for portfolio tables, valuation cards and price charts.
- Added responsive layouts, loading, empty and error states, and accessible form patterns throughout.
- Integrated and normalised data from multiple REST APIs into a single, consistent interface.

[Life OS - Personal Development Tracker](#) | Next.js, Supabase, TypeScript, Auth0

- Implemented dynamic data visualisation for habits, streaks and progress over time.
- Integrated secure authentication via Auth0 and a Supabase backend for structured, efficient data storage.

Education

BSc Accounting & Finance - Swansea University

Sep 2013 – Aug 2016

- Completed modules in Management Accounting, Financial Accounting, Investment Banking, Entrepreneurship and SAGE.
